Wheat Opens Weak, Rules Irregular, and Finally Closes Strong and Higher.

Corn Quiet and Inactive, the Fluctuations Being Narrow-Oats in Good Demand and Lower-Provisions Inactive and Steady.

## MONEY, BONDS AND STOCKS.

A Fairly Active Market at New York, Many Shares Being Fractionally Higher. NEW YORK, Oct. 30 .- Money on call was easy at 2024 per cent, the last loan being made at 2, closing offered at 2 per cent.

Prime mercantile paper, 42 07 per cent. Sterling exchange was duli but firm at \$4.84 for 50-day bills and \$4.874 for demand. The total sales of stocks to-day were 269,778 shares, including the following: Delaware, Lackawanna & Western, 17,270; Erie, 2,700; Lake Shore, 3,830; Missouri Pacific, 6,535; Northwestern, 14,510; Northern Pacific, preferred, 8,700; Transcontinental, 8,100; Reading, 41,550; Richmond & West Point, 18,475; St. Paul, 11,265; Union Pacific, 42,830; Westers Union, 16,650.

The stock market was fairly setive to-day, though the greatest animation was in the forenoon, and it was feverish and irregular with a general downward tendency in the forenoon, with a full recovery later in the day, most stocks this evening being small fractions better than last night. The "bears" were still in full control this morning, and New England, Union Pacific and Reading were the special points of attack; but while the rest of the list sympathized with the weakness shown in those stocks the changes in quotations for most of the stocks traded in were for insignificant fractions only. There was nothing new in New England, but there was considerable selling from Boston. The stocks of that center were again weak, and Union Pacific, Burlington & Quincy and New England yielded from 1 to 12 per cent. The Southern stocks were somewhat unsettled by rumors of resignations in the Richmond & West Point and Richmond & Danville boards, and Terminal preferred lost about a point, but afterwards moved up again. The strong spot in the list was Missouri Pacific, which was started up by rumors that Mr. Gould bad obtained control of Atchison, the other Gould shares following, and though the rumor was authoritatively denied they retained their advance. Louisville & Nashville was also firm to strong throughout the day, and while there was no marked movement in the stock at any time, it is materially higher this evening. The attack upon Reading and the other coal stocks was made upon the expectation that the roads would come into contact with the interstate commission, though the impression made upon them was of little importance. First prices were generally slight fractions bigher this morning, but the attacks upon New England, Union Pacific and Reading were began immediately, and on a large business prices receded various amounts, extending to a little over a point. It remained quite fever-ish during the forencon, however, being active on the declines and firmer when the animation ceased, while the "bears" forced prices off small fractions further. The pressure was removed after 12 o'clock, and, while the market drifted into duliness, material recoveries were established all over the list, and as the afternoon wore along the upward movement gathered force, while the activity increased, There was no special feature of interest, however and the market finally closed quiet but steady to firm, generally at about the best prices reached, which were close to the opening figures. The active list is almost invariably small fractions above last evening's figures, while Missouri Pacifice rose 1; and Louisville & Nashville 1

The railroad bond market was somewhat more active, though the general list showed no improvement in that respect over the past few days. The Reading issues were once more the special features, and the seconds furnished \$247 .-000 and the firsts \$157,000 to the day's total of \$1,-696,000. They were weak in early trading, but recovered later and closed at prices not materially different from those of last evening. The rest of the list were quite firm and advances are in a majority, the most important being Central Iowa certificates, 2, to 84.

Government bonds were dull and steady.

CHICAGO. Oct. 30 .- Trading in wheat was light early, and the market ruled dull most of the session, without much change in prices, which ruled both a trifle under and a fraction over the closing figures of yesterday, but to-ward the close suddenly became very strong and advanced sharply. The opening was weak, with sales from the same as yesterday's, closing to to lower; prices then declined to more, railed 350 for May, ruled irregular, and closed lie higher for December and 2 to higher for May than the closing figures yesterday. Operators, per-haps, were generally "bearishly" inclined, but were reluctant about backing up their views, fearing manipulation. Corn ruled quiet and inactive most of the session, fluctuations being narrow and trading limited.

An easy feeling was developed shortly after the opening, which was about the same as the closing prices of yesterday, after which the market sold off ic, reacted in it., ruled dull and neglected. closing in a less animated.

Speculative trading in oats was less animated. There was a good demand for May delivery at about 29e, or about to under yesterday's closing: at anything above, buyers held back. Near futures were very quiet. They were about steady, and no essential steady, worth mentioning occurred. change October delivery has become about nominal, being all settled. Trading was rather light in mess pork, and almost exclusively in contracts for January delivery. The market opened rather steady, but offerings were fair and prices receded 7 210a. Later more steadiness prevailed, and prices railted again and closed steady.

There was not much doing in lard. Offerings were fair early, with a comparatively light desteadier, and prices rallied slightly. November and January deliveries met with most favor. Nothing of consequence was doing in short-ribs, and prices exhibited very little change. Offerings were small and demand limited. Trading centered in January contracts. The leading

Business Expected to Improve When the Elec-

tion Is Out of the Way. INDIANAPOLIS, Oct. 30. As the month draws near its close, trade naturally takes on a quiet tone, but the belief prevails in business circles that as soon as the presidential election is out of the way trade is to reach large proportions. The corn and hog crop will then begin to move, money will begin to circulate more freely, and the surroundings generally will be favorable to such expectations. In prices, to-day, there were but few fluctua-tions in values. Provisions are weaker in tone at the revised quotations of Monday. There is considerable doing in a jobbing way, and the stock now in hand is much lighter than one year ago. Grocers are having a fair trade. Stocks of refined sugars are said to be accumulating East, and lower prices may follow unless there is an early increased demand, which is not likely to occur so late in the season. The coffee market lacks confidence, as well, and Eastern papers speak of the market as not being healthy in tone. Packers are trying to buil the market on canned goods, raising the cry that there is a scarcity, which is hardly true, unless it be in the way of tomatoes. The tea market carrys a cheerful tone, and most grades are firmly held. The
